

# NABIN POKHREL

## SYSTEM ADMINISTRATOR

Salt Lake City, UT | 385-299-9997 | nabin.pkl@gmail.com | linkedin.com/in/nabinpkl | github.com/nabinatwgu

### PROFESSIONAL SUMMARY

---

Systems Administrator with 7+ years of experience supporting IT operations across hundreds of client environments in an MSP setting. Hands-on expertise in Microsoft 365, Entra ID (Azure AD), Intune, Windows Autopilot, Exchange Online, Azure infrastructure, Windows Server, Linux, and PowerShell automation. Experienced in identity and access management, endpoint administration, cloud migrations, security controls, Tier 2/3 escalation, and technical documentation. Proven ability to support large user and device populations, automate repetitive administration, and mentor service desk technicians.

### TECHNICAL SKILLS

---

|                                     |                                                                                                                                                        |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Microsoft 365 &amp; Identity</b> | Entra ID (Azure AD), Conditional Access, MFA, RBAC, Exchange Online, SharePoint, Teams, OneDrive, user/group provisioning, licensing, Azure AD Connect |
| <b>Endpoint Management</b>          | Microsoft Intune MDM/MAM, Windows Autopilot, device configuration, compliance policies, security baselines, patch management                           |
| <b>Cloud Platforms</b>              | Microsoft Azure - Virtual Machines, Storage, Network Security Groups (NSGs), Key Vault, Azure Monitor; AWS IAM fundamentals                            |
| <b>Systems &amp; Networking</b>     | Windows Server, Linux (Debian, Ubuntu, CentOS), firewalls, VPN, ExpressRoute, hybrid connectivity                                                      |
| <b>Security</b>                     | Data Loss Prevention (DLP), Advanced Threat Protection (ATP), vulnerability assessment, incident response, access control                              |
| <b>Automation &amp; Support</b>     | PowerShell, Bash, Microsoft Graph API (working knowledge), Tier 2/3 escalation, ticketing, SOPs, knowledge base documentation, technician training     |

### PROFESSIONAL EXPERIENCE

---

#### System Administrator | Les Olson Company | Salt Lake City, UT *June 2019 - Present*

- Administer Microsoft 365 for 200+ users, managing Entra ID identity lifecycle, Conditional Access, MFA, RBAC, licensing, Exchange Online, SharePoint, Teams, and OneDrive.
- Deploy and manage Microsoft Intune MDM/MAM across 500+ Windows devices, including configuration profiles, compliance policies, security baselines, and patch management.
- Provisioned 300+ Windows devices through Windows Autopilot, improving and standardizing endpoint deployment.
- Serve as a Tier 2/3 escalation point for the service desk; trained 5 technicians from Tier 1 to Tier 2 and authored SOPs and knowledge base documentation to improve support consistency.
- Deploy and manage Azure virtual machines, storage, and Network Security Groups; support cloud migrations and monitor hybrid infrastructure health through Azure Monitor.
- Migrated 200+ mailboxes to Exchange Online with zero data loss and configured DLP policies, Teams governance, and SharePoint/OneDrive provisioning.
- Led an on-premises to cloud identity migration with zero downtime using Azure AD Connect hybrid synchronization.
- Develop PowerShell scripts for user provisioning, reporting, and repetitive administrative tasks to reduce manual effort.

### EDUCATION

---

Bachelor of Science, Cloud Computing | Western Governors University

### CERTIFICATIONS

---

- Microsoft Certified: Azure Administrator Associate (AZ-104) - valid through 2026
- AWS Certified Solutions Architect - Associate - valid through 2028
- CompTIA Cloud+
- CompTIA Project+
- LPI Linux Essentials
